Invited Speakers

Dr. Afif Osseiran

Industry Engagements & Research at Ericsson's headquarter in Stockholm

Dr. Afif Osseiran is director of Industry Engagements & Research at Ericsson's headquarter in Stockholm. He is also vice chairman of the 5G-ACIA alliance and a senior member of IEEE. His main responsibility is to bridge

insights, tactics and strategies between technology, research/standardization and industrial sectors such as manufacturing. He holds a doctorate degree from the Royal Institute of Technology (KTH), Sweden, a master's degree from École Polytechnique de Montreal, and another one from INSA Rennes, France. Since 1999 he has held several positions at Ericsson in various units. From 2014 to 2017, he was director of radio communications at the Ericsson CTO office with the main responsibility to develop the strategy for 5G and Industrial IoT. From 2012 to 2014, he managed METIS, the EU 5G flagship project. He co-authored the first comprehensive book on 5G with Cambridge University Press and two books on IMT-Advanced with Wiley

Dr. Kisuk Kweon

Standards Research Team, Samsung Research of Samsung Electronics

Dr. Kisuk Kweon received his M.Sc. and Ph.D. Degrees from Korea Advanced Institute of Science and Technology (KAIST), South Korea, in 2004 and 2010, respectively. Since 2010, he has been working with the Samsung Research of Samsung Electronics as a

principle engineer. He has been working as CT1 and SA2 delegate to 3rd Generation Partnership Project (3GPP) since 2016. His research interests include mobile communications systems, wireless networks, wireless sensor networks and Internet of Things.
